Mail

Add or remove accounts, manage Siri & Search, and customise how your mail appears and works. [Learn more...](#)

Mail Accounts

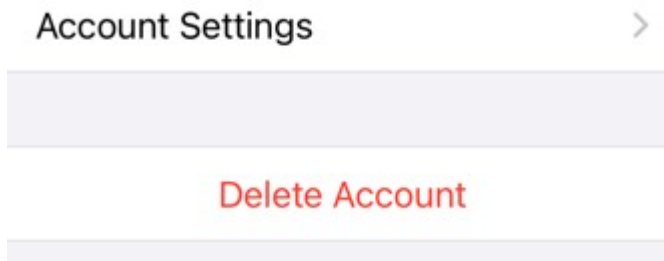

3 >

4. In the Mail Accounts area, find the account you wish to delete, and press it.

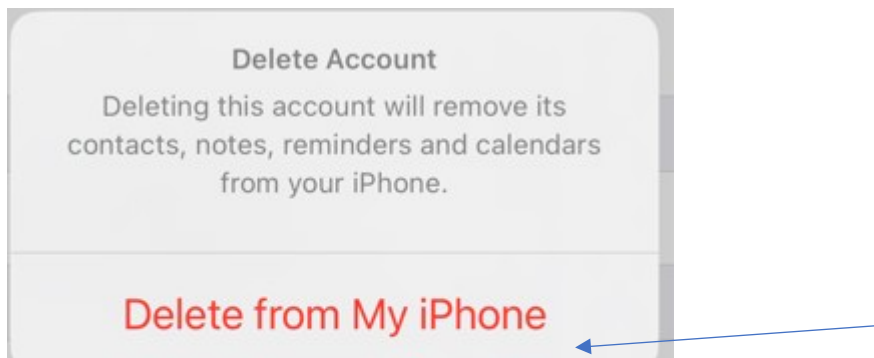

How to delete an Email Account from your iPhone

5. In the Mail Account you have selected, scroll down and press the Delete Account option.

6. When you choose this option, you'll be warned that deleting the account will delete various items from your iPhone.

7. Proceed to delete the account by deleting the from your iPhone.

The account will now be deleted, this may take a few seconds or a couple of minutes depending upon the speed of your device and the amount of data being deleted.

You'll be returned to the Mail Accounts screen and the account will be gone. You can now return to the home screen or add anew mail account.
